- Trail Rules & Safety Information**
- Carry in, carry out. Leave no trace.
 - Respect wildlife.
 - Share the trail.
 - Many of our trails are within working forests. Watch out for and yield to logging trucks.
 - The majority of our trails are in remote places, plan ahead and be prepared for self-rescue.
 - Don't count on cell phones. Service is extremely limited on our trails and in our huts. Always let someone know where you are going, what route you are taking and when you plan to be back. Enjoy the trails in groups when possible.
 - Always pack snacks and plenty of water.

- Emergency Information**
- In the event of an emergency, first attempt to CALL 911.
 - Mark the location of the injured person on a map and, if possible, use a GPS to get an exact coordinate.
 - If possible, have at least one person stay with the injured person while another goes for help.
 - DO NOT attempt to move the injured person if a head, neck or back injury is suspected.
 - Attempt to keep the injured person warm and dry.
 - Assist the injured person to the nearest road only if the injury is not to the head, neck or back.
